**YES WAIVER PROVIDER SERVICES
OPEN ENROLLMENT REQUEST FOR APPLICATION**

PERMIAN BASIN COMMUNITY CENTERS (PBCC) is the Department of State Health Services designated mental health Authority established to plan, coordinate, develop policy, develop and allocate resources, supervise, and ensure the provision of community based mental health and developmental disability services for the residents of *Midland, Ector, Pecos, Brewster, Jeff Davis, Presidio, Hudspeth and Culberson* Counties, Texas.

I. SERVICES SOUGHT

This Request for Application seeks providers for the purpose of delivering the Medicaid 1915 (c) YES Waiver services represented in Table 1 and Section II in the counties of *Midland, Ector, Pecos, Brewster, Jeff Davis, Presidio, Hudspeth and Culberson* for individuals matching the target population.

Background of the YES Waiver - The Health and Human Services Commission (HHSC) and the Department of State Health Services (DSHS) received approval from the federal government to implement a 1915(c) Medicaid Waiver in February, 2009. The YES Waiver allows more flexibility in the funding of intensive community-based services and supports for children and adolescents with serious emotional disturbances (SED) and their families. HHSC and DSHS worked collaboratively to develop the YES Waiver and sought input throughout the process from a broad array of stakeholders.

Texas strives to provide a continuum of appropriate services and supports for families with children and adolescents who have severe mental illness. There are some instances in which parents have turned to state custody for care when they feel they have reached or exceeded their financial, emotional or health care support resources and are unable to cover the costs of their child's or adolescent's mental health treatment. The 78th and 79th Texas Legislatures directed HHSC to "develop and implement a plan to prevent custody relinquishment of children and adolescents with serious emotional disturbances," and authorized the request of any necessary waivers from the federal government.

HHSC and DSHS developed a draft program model and analyzed data to determine that the approved YES Waiver meets federal cost neutrality requirements and can be implemented and operated within the current state Medicaid budget. The YES Waiver is designed to reduce Medicaid psychiatric hospital expenses for children with SED by providing community-based services.

The goals of the YES Waiver include:

- Reducing out-of-home placements and inpatient psychiatric treatment by all child-serving agencies,
- Providing a more complete continuum of community-based services and supports for children and adolescents with SED and their families,
- Ensuring families have access to parent partners and other flexible non-traditional support services as identified in a family-centered planning process,
- Preventing entry and recidivism into the foster care system and relinquishment of parental custody, and
- Improving the clinical and functional outcomes of children and adolescents.

The objective of the YES Waiver is to provide community-based services in lieu of institutionalization.

Children and adolescents will be determined financially eligible for the YES Waiver using standards used to determine eligibility for Medicaid institutions. Under these standards, parental income is not counted, which will eliminate the current incentive for parents to relinquish custody to obtain access to Medicaid coverage for mental health treatment.

- A. The specific services being sought, the unit of service, and then the standard rate of payment to be offered are presented in the following Table 1. Detailed service descriptions, provider qualifications, and documentation standards are provided in Section II. In Table 1, Applicants must check the box to the left of each service for all services that the applicant is interested in contracting for. The Applicant agrees to accept the fees listed to the right of each service in Table 1 as payment in full for all services delivered. The Applicant will not submit a claim, bill or collect compensation from PBCC for any service for which it has not submitted an application, been approved, or contracted to provide. Applicant agrees that compensation for providing services not covered by its application will be solely between the consumer and the Applicant. The consumer must

be informed in writing before any services are provided that PBCC is not responsible for payment for such services. Consumers are responsible for payment for those services only if the consumer consents in writing to the provision of such non-covered services.
